

**CSCMP Twin Cities Roundtable**  
**Tuesday, September 14, 2010**  
**Target Field, 5:00 p.m. – 8:30 p.m.**

**"The Champions Behind the Champions" –  
Creating the Game Day Experience**

Join us for an evening of discovery at Target Field where we will tour the Minnesota Twins Supply Chain. Within the confines of 1 Twins Way is an entire supply chain network responsible for preparing the stadium for Game Day. Our tour will take us through this network to see when and how inventory is purchased, received, processed and distributed to the various outlets and how it reaches the end user... and what a quick turnaround it often is. Some of the areas toured will be the loading dock, security, restaurants, and various media and communication outlets, and box and club seating areas.

While networking, we will hear from a panel of Minnesota Twins staff members who will tell us the ins and outs of having all 40,000 of your customers coming through the door one at a time and what it takes to create a memorable experience for them.
